

3/13/2020

HSI Parents,

As news of the coronavirus remains prevalent, I want to assure you that HSI Laredo, continues to monitor the situation through proven and trustworthy sources, and is working with our local Laredo Health Department to keep employees and students safe. HSI Laredo will be closed for Spring Break from March 16-20. On Monday, March 23, when classes resume, we will once again be monitoring students and staff for symptoms of concern and exposure risk and confer with local health department officials about appropriate steps to prevent the spread of illness.

In order to be proactive, as a school we have prepared instructional activities in the event that a remote learning plan is necessary. The administrative team met today and began planning for the days following spring break. This would allow for instruction to be delivered remotely if closures persist. HSI is committed to ensuring that students do not experience an interruption of learning. In the event that we must close school for a longer period of time, we want the students to be prepared to continue their learning at home. This means the students will be expected to complete assignments at home for class credit and grades. These packets will be sent home and will be available online via the links on the school website.

At this time classes will resume as scheduled on Monday, March 23rd. Please monitor our social media or school website for further updates.
